### **RE: WATER SHORTAGE IN THE UNIVERSITY**

The above subject matter refers.

This is to inform you that the University is currently experiencing water shortage due to technical challenges faced by the sole water service provider, BWASCO.

In the meantime, the Estates Department is pumping spring water closets and external rain water tanks for washing and cleaning. The limited water delivered by water bowser will be reserved strictly for designated drinking points.

Kindly bear with the situation as efforts are underway to restore normal water supply as soon as possible.

Sorry for any inconveniences caused.

Dr. Ruth Mitalo, CS(K), CHRP(K)  
**REGISTRAR, ADMINISTRATION & HR**
